ABOUT US

At Head Resourcing we are proud to specialise in contract and permanent IT, digital and business change recruitment. We try not to take ourselves too seriously, but what we do take seriously is the service we provide to our candidates and clients. So, whether you're looking for the best person for your team or the best opportunity for your career, we're here to help and delighted to introduce **Validify**.

VALIDIFY

WHO WE ARE

Established in 2015, **Validify** was originally launched to support our busy contractor business with all their pre-engagement screening requirements for new contractor personnel placed across our broad and heavily regulated client base.

Founded on the level of service and compliance offered from the team, we were approached by a number of our clients to extend this service, which led us to the decision of creating this distinct service offering that is now being utilised by clients on a stand-alone basis or in conjunction with our other recruitment services.

Validify operates with a dedicated team with over 10 years' experience in Quality and Compliance Management, as subject matter experts in terms of regulation, governance, and legislation across a number of industry sectors. As a trusted partner our services have extended over time, offering clients a full menu of support to assist in any size of recruitment project or campaign, including fully outsourcing the entire vetting process.
